

Sterile AlphaSat® with AlphaSorb HC

AlphaSorb® HC wipers saturated with 70% IPA

Description

Sterile AlphaSat® with AlphaSorb® HC incorporates ITW Texwipe's highly sorptive AlphaSorb® HC polyester wipers. Chosen for their low particle-generating characteristics and low extractable levels, these wipers offer superior strength in a continuous-filament knitted substrate. This substrate is saturated with a 0.2µm filtered, 70% isopropyl alcohol/30% deionized water solution.

This product has been gamma irradiated to a Sterility Assurance Level (SAL) of 1 ppm (SAL = 10⁻⁶) in accordance with the Association for the Advancement of Medical Instrumentation (AAMI) Method 1. Sterile AlphaSat® with AlphaSorb® HC is ideal for alcohol wipedowns in the most critical areas of pharmaceutical sterile environments.

Features

- Saturated with high-purity 70% isopropyl alcohol/30% deionized water, filtered through a 0.2 µm filter
- Unique two-ply, pinsoniced wiper constructed from 100% knitted continuous-filament polyester
- Gamma irradiated to 10⁻⁶ Sterility Assurance
- Can be wiped down prior to introduction into the sterile suite
- Each shipment accompanied by a lot-specific Certificate of Irradiation and Certificate of Compliance with expiration date marked on each package
- Independent quality-control audits for sterility assurance

Benefits

- Eliminates problems associated with filtration, sterilization and mixing of alcohol and DI water
- Superior wiper strength allows for rigorous wiping with minimal release of fibers and particles
- Optimizes solution usage and eliminates over-spray of alcohol
- Reduces IPA spill potential and eliminates the storage and disposal of excess solvents
- Eliminates the maintenance of squirt bottles

Applications

- Excellent for wiping down roller bottles and other production equipment in a sterile environment during and following production flow
- Designed for cleaning environmental surfaces in sterile suites that require low solvent extractables and low particle generation
- Ideal for easy cleanup of soiled surfaces in sterile suites
