Steam Sterilization Chemical Indicator Label

Texwipe’s Steam Sterilization Chemical Indicator Label is designed and engineered for easy, accurate record keeping of materials subject to the steam sterilization process.

Autoclave
Texwipe’s unique label material prevents removal of written data by the steam sterilization process. Our adhesive allows the label to be removed after the autoclave process and reapplied to a tracking form for permanent recordkeeping.

Meets AAMI ST60 and ISO11140-1

Features
- Designed and formatted for data recording and sample tracking
- Indicator ink signals autoclave completion
- Removable from glass, metal and sterilization bag surfaces
- No residue

Benefits
- Supports accurate data recording and sample tracking
- Easy-to-use format for recording information
- Recorded data remains intact through steam sterilization process
- Signals completion of autoclave process
  (ink color change – blue to pink)
- Eliminates post steam sterilization cleaning (residue-free design)

Applications
- Metal trays
- Glassware
- Instruments and tools
- Autoclave bags

Material Information
- Substrate: Teslin®
- Adhesive: Autoclavable; pressure-sensitive adhesive
- Release liner: Polyester
- Category ink: Water-based
- Indicator ink: Water-based steam sterilization ink
