SPECIALTY SWABS

TECHNICAL DATA SHEET

Individually packaged in cleanroom compatible sleeve

Product

Number	Description	Packaging	Case
TX726	CrushTube™ Swab	50 swabs / box	10 boxes

Description

Texwipe's CrushTube™ system includes a 100% polyester nonwoven material head attached to a protective polybutyrate external vial enclosing an internal vial made of soda lime glass (Type III USP glass), that contains **USP-grade 91% IPA / 9% DIW solution**.

When the internal vial is crushed, the swab's head becomes saturated with the 91% IPA / 9% DIW solution for point-of-use application.

Each swab is individually packaged in a cleanroom compatible peel-apart sleeve.

Applications

- Solvent cleaning and maintaining of ion emitter tips
- Cleaning of grooves, tracks, slots, and other small spaces
- Removing adhesive buildup
- Solvent cleaning sensitive surfaces such as optical assemblies

Features & Benefits

- IPA solution is separated from head until the internal vial is crushed
- Precision spot cleaning, no extra container of solvent needed
- Individually packaged for ease of transportation and use
- Lot coded for traceability and quality control

TECHNICAL DATA SHEET

TX735 Precision Dual-Tipped Swab

Products

Number	Description	Packaging	Case
TX735	Precision Dual-Tipped Swab	50 swabs / bag	20 bags

Description

Texwipe's Precision dual-tipped swab is a polypropylene handle with one pointed end and the other end flat.

Packaged in a reclosable, amide-free and silicone-free bag.

Applications

- Cleaning intersecting surfaces and joints
- Gentle removal of stubborn stuck-on contaminants
- Pinpoint application of solvents, adhesives, and lubricants
- Cleaning of grooves, tracks, slots, smooth surfaces, and other small spaces
- Pinpoint cleaning and assembly placement

Features & Benefits

- 100% polypropylene construction ensures no additional contaminants are introduced while offering excellent chemical resistance
- The pointed end offers a very fine end for micro-applications
- The flat end can be used as a spatula for various applications
- The polypropylene handle offers flexibility – the handle will bend and is difficult to break
- Lot coded for traceability and quality control

Flat Tip End

Pointed Tip End

TECHNICAL DATA SHEET

TX730 Precision Nylon Swab & Tool

Bundled Nylon Filaments form a mini brush at the tip

Product

Number	Description	Packaging	Case
TX730	Precision Nylon Swab & Tool	50 swabs/bag	10 bags

Description

Texwipe's Precision Nylon Swab is made from a 0.9 mm diameter tip constructed of bundled nylon filaments in a tube crimped into a 100% polypropylene handle. The filaments form a mini brush at the very tip.

Packaged in a reclosable bag.

Applications

- Gentle picking of stubborn stuck-on contaminants
- Pinpoint application of solvents, adhesives, and lubricants
- Cleaning of grooves, tracks, slots, and other small spaces
- Removing excess solvent in confined spaces

Shelf Life

- 5 years from date of manufacture

Features & Benefits

- Bundled filaments pick up solvent through capillary action
- Long, thin filaments reach into narrow channels, corners, edges for cleaning particles and removing excess solvent
- 100% virgin polypropylene handle
- Crimped construction eliminates the risk of adhesive contamination
- Lot coded for traceability and quality control
