### Description

TexTra™ is made from 100% polyester with a cut edge, cleanroom laundered.

TexTra™ 10 is made from 100% polyester with a sealed border, cleanroom laundered.

Available dry (TexTra™ and TexTra™ 10) and sterile (TexTra™ 10).

### Features & Benefits

- Constructed from a single layer of polyester, equivalent to a two-ply absorbent capacity creating a high absorbency wiper ideal for spill control, cleaning, and solution application.
- Cleanroom laundered providing low levels of ions and NVRs (non-volatile residues) particles.
- Designed for use on abrasive surfaces. This wiper will not easily snag or abrade releasing particles and fibers into the process or environment.
- Excellent chemical resistance for compatibility with a variety of solutions.
- Meets USP <797> and USP <800> wiper requirements.
- Autoclave safe.
- Individually lot coded for ease of traceability and quality control.

### Cleanroom Environment

- ISO Class 3 – 8
- Class 1 – 100,000
- EU Grade A – D

### Industries

- Aerospace
- Animal Laboratory
- Biologics
- Compounding
- Pharmaceutical
- Data Storage
- Industrial
- Laboratory
- Medical Device
- Microelectronics
- Printing/Graphics
- Semiconductor
- USP <797> / USP <800>

### Shelf Life

- Non-Sterile (Dry) – 5 years from date of manufacture
- Sterile (Dry) – 3 years from the date of manufacture
